Client Success Stories

I am proud to have received great feedback from many of my clients over the years ...

“Kirsty is the best ‘right arm’ you could ask for. She is bright, charming and most of all is brilliant at executing everything you give her with ease. What I love most about working with her is not only her attention to detail, but also her service ethic and initiative. She keeps me on my toes and is the very support I need as a solo-preneur.

If you have any doubts or reservations about hiring a VA – Kirsty will put your mind at rest in her very first week with you! Her value far outweighs your perceived worry about paying someone else to do what you could do. You are my shining star Kirsty.”

Shelley Rostlund, Social Intelligence

“I first hired Kirsty in May 2011 and since then, she has become an integral part of my business. No task is too big or small and I can rely on Kirsty get it right, the first time. What’s more, Kirsty goes the extra mile to make suggestions on how we can improve how we work together, which I find invaluable. I could go on all day! If you’re wondering if you can afford a VA, you should be wondering if you can afford not to. Let Kirsty do her thing and you will definitely save in the long run.”

Belinda Weaver, Copywrite Matters

“I highly recommend Kirsty and her team of virtual assistants. Kirsty is a delight to work with and is reliable, proactive, efficient and always on the ball. We never need to give long briefs or go through several attempts to have a task complete, because Kirsty understands what is needed the first time, and even contributes excellent ideas. This was not at all what I expected of a virtual assistant. I have been pleasantly surprised!”

Phoebe Netto, Pure Public Relations

“One of my business associates referred me to Interim Business Solutions back in 2013, and I have been eternally grateful! I am kept fully informed about the work that Interim Business Solutions is doing for us from logging its receipt, to progress reports to delivery. Interim Business Solutions proactively identifies potential issues and suggests workable solutions. But above all, they just get it done efficiently and effectively. We have used Interim Business Solutions for a range of jobs from entering expenses to creating templates, writing reports, creating PowerPoint presentations, and entering data into spreadsheets. We haven’t found a job they couldn’t do yet, but we’re still trying!”

Andrew Birch, Vantage Performance
